

FRENCHMEN PREPARE TO CELEBRATE JULY 14

American Doughboys Arrive in Paris to Take Part in Festive Occasion.

CHEERS REND THE AIR

People of City Move in Pious Pilgrimage to Huge Cenotaph Created Beneath Napoleon's Arch of Triumph.

PARIS, July 13.—At 10 o'clock tonight will begin the greatest "glorious" celebration in the history of the republic.

As the correspondent writes, motor lorries are passing the Grillon. They are filled with doughboys from the various American corps on the Rhine, who are to represent Uncle Sam in the monster parade tomorrow—Bastille Day.

Cheers rend the air. The great holiday crowds waiting the morning rush by as they mean, in the hour of victory and triumph, to show their gratitude to the fighting lads from America who took such a decisive part in the battles a year ago that made this celebration possible.

Tonight the people of Paris will be seen in pious pilgrimage to the huge cenotaph erected beneath Napoleon's Arch of Triumph in memory of France's dead heroes. As the monument is unveiled searchlights will play a myriad rays upon it, and all around it will be placed torches that are to burn all night long, while troops will hold an all-night honor vigil.

Processions Are Moving. City-wide torchlight processions began at 10 o'clock tonight. Bands and standards have been erected at all important places. Street dancing will last all night, and the celebration as a whole will not end until the wee small hours of Tuesday.

The heart of Paris throbs with joyous, feverish expectancy. "Gay Paris" is coming into its own again. The city is choked with people, thousands have come from the suburbs, from all parts of France, even from various parts of Europe, to witness the spectacular festivities.

Old farmers from the North and South of France can be seen tonight gazing with deep wonderment at the beautiful decorations of the city from the Place de la Concorde and the Champs Elysees to the most obscure alley. There is scarcely a window or a post not bedecked with flags, or flowers or laurels.

Enterprising youths with expert planes are sizing up trees from which they expect to view the great parade. Hundreds of men, women and children are camping on the avenues all of tonight to be sure of a place of vantage tomorrow. Some have brought rickety field chairs, but most of them are squatted on the hard stones.

Avenue Is Riot of Color. The Champs Elysees, Paris' most beautiful avenue which leads from the chief Arc de Triomphe to the Place de la Concorde, is one great riot of colors.

All stands that had been built along both sides of the avenue are being taken down by order of the Minister of War. His office had been overwhelmed with requests from high and low for cards of admission, and a number of cardholders had been refused.

Among the city's poor, who wondered how they could ever see the parade without tickets, so the Minister has hit upon the easiest solution, and now it is a question of "chausin pour soi" (everybody for himself). No such ticket will be required, and no pull can help to get a vantage point. Only the stands for President Poincaré and his government officials remain. Strong lines of troops, however, will insure order and keep the crowds from mingling with the parading troops.

PREDICTS UNITED STATES SOON BE ON TIPLESS BASIS

Ohio Hotel Association's President Says Many Taverns Will Be Installed.

CINCINNATI, July 13.—With the going out of intoxicating liquor, the country is also likely to go on the "tipless" basis, according to A. C. Stephens, president of the Ohio Hotel Association, who is in Chicago arranging for the convention of his association to be held in connection with the hotel show here during the week of August 4.

"I think the day of tips is over," said Mr. Stephens. "The hotel industry is a source of supply practically cut off. It is hard to get waiters. So the hotels have been making more and more fully considering mechanical devices to take the place of servants."

"It is surprising how many really good hotels have installed cafeterias. I predict that more of them will do so. The cafeterias, you know, is a strictly tipless institution. Even in dining rooms where there is service the waiters are making rapid work with waiters in making rapid work. There are all sorts of mechanical devices for this purpose. A mechanical system for checking hats and wraps has already been devised and, I am sure, will soon come into general use. With the going out of liquor and the curtailing of tips in consequence of this waiters will be asking a wage scale two or three times as great as the present one, and the hotel men simply can't afford to pay it."

FAMOUS CASINO AT OSTEND REOPENS FOR BUSINESS

Belgian Resort, Recently Scene of Devastation, Is Resuming Its Ordinary Life.

OSTEND, BELGIUM, July 13.—After nearly five years of war, Ostend is resuming ordinary life as far as possible under present conditions with the reopening of the famous casino. A few months ago the great saloons of the casino were in ruins, and the buildings escaped the bombardment of the nine months' siege, but the beautiful hotels and villas along the Digue into heaps of rubble, and the nine months' siege had repaired all the damage thus occasioned, and the Germans had plundered and destroyed the saloons.

Every piece of furniture was taken away, beautiful tapestries were slashed and torn by German bayonets and every mirror in the hall was removed, together with the copper-candelabra in the saloons and the beautiful corner staircases. Not content with robbery the Germans left the whole place in a state that would have shamed any animal inhabiting a stable. But since then a miracle has been wrought, and but for the fact that some of the more valuable fixtures are at present only temporarily replaced by imitation, there is no evidence of the war so far as the casino is concerned.

DEDICATES NEW MEDAL TO AMERICAN AIR FORCE

Dora Ohlfsen Submits Design Including President's Famous Challenge to Hum Power.

ROME, July 13.—Dora Ohlfsen, designer of the Anzac medal, has designed in her Rome studio, a new medal dedicated to the American air force. The face of the medal is that of an American aviator, the model for which had served in the American air force during the Italian campaign, surrounded by an allegorical design symbolical of America's will and power.

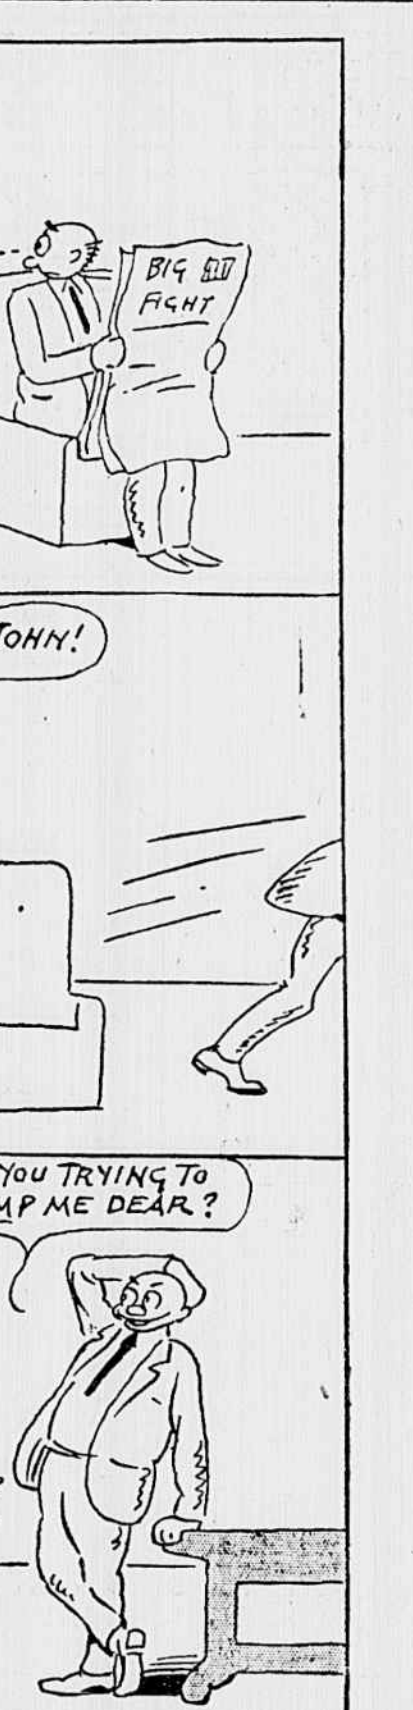

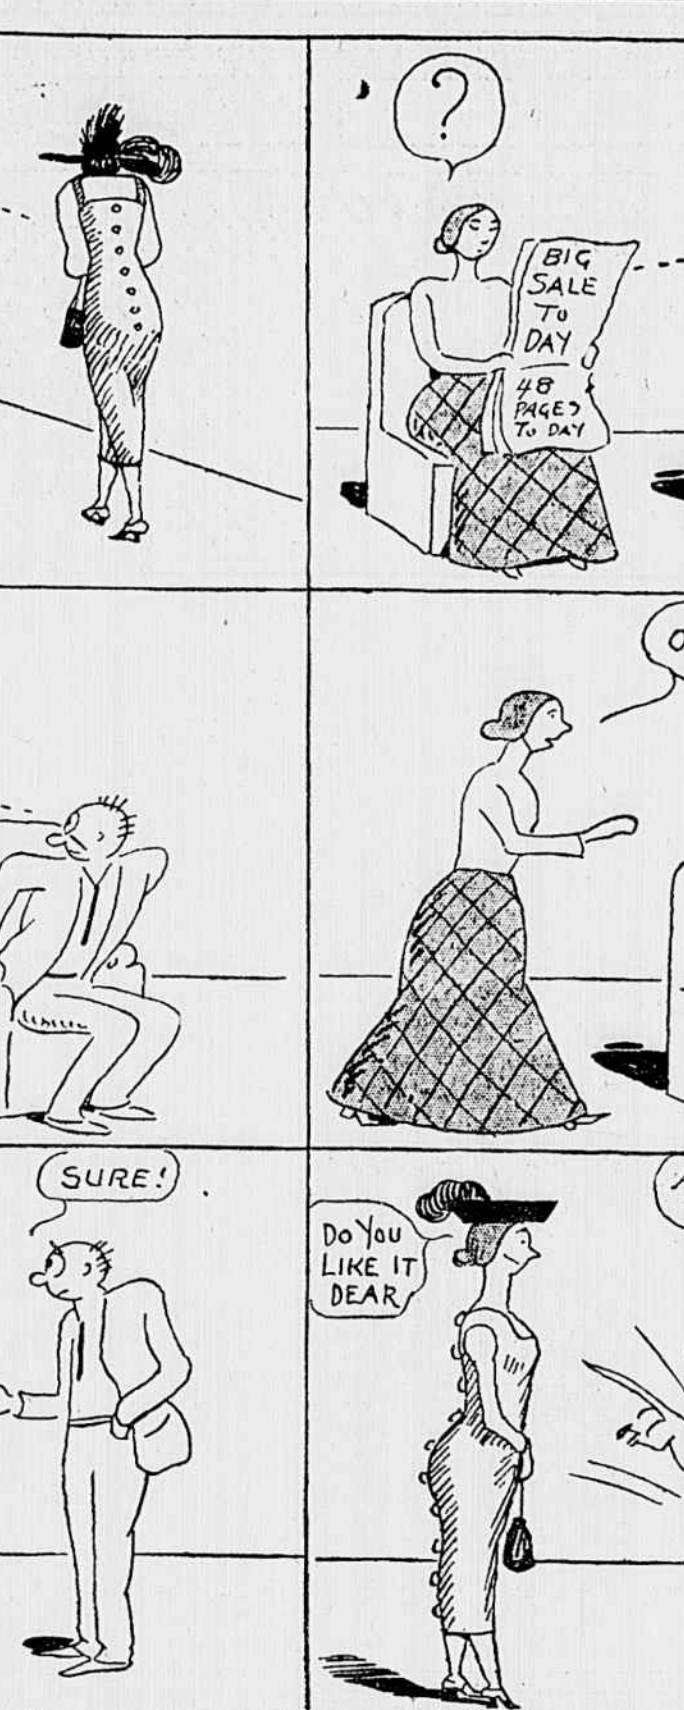

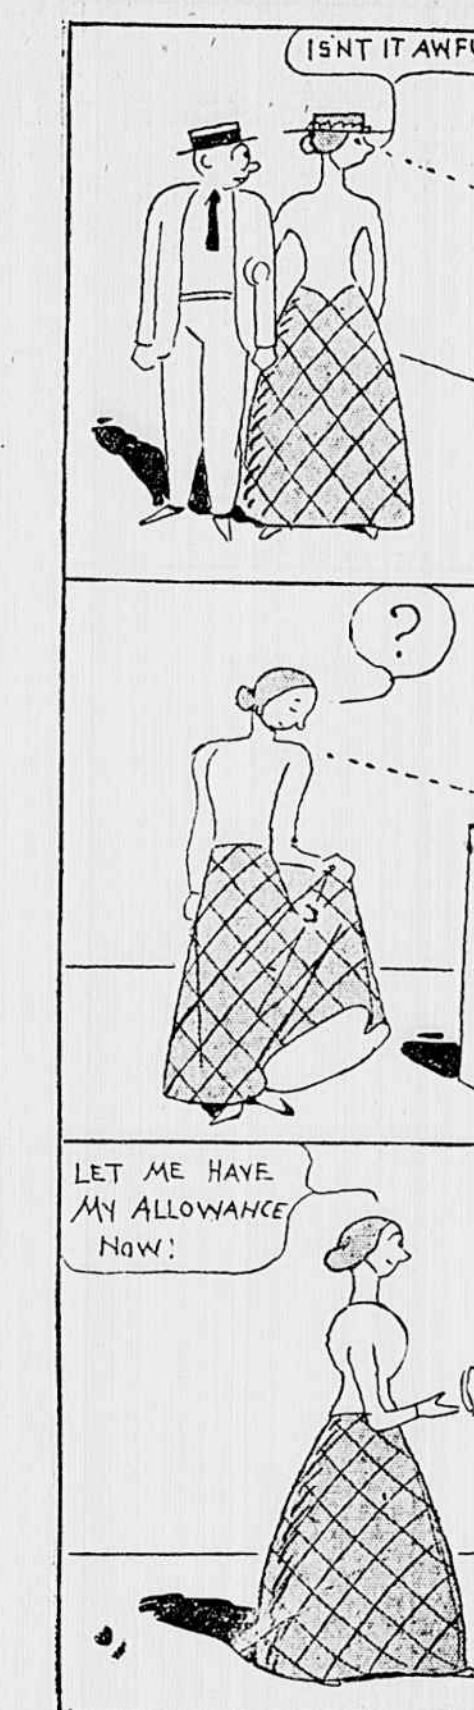

On the reverse side of the medal is symbolical of the task America accomplished in transporting her fighting forces across the sea and bearing an inscription taken from President Wilson's message to Congress which reads:

"There is therefore but one response possible from us: Force, force to the utmost, force without stint or limit, the righteous and triumphant force which shall make right the law of the world, and cast every selfish dominion down in the dust."

NEW WAVE OF OUTRAGES INFECT SOUTHERN MEXICO

Withdrawal of Troops to Campaign Against Villa Causes Revival of Disorders.

LAREDO, TEX., July 13.—Withdrawal of troops from bandit-infested regions in central and southern Mexico to campaign against Villa in the north has led to a new wave of train wrecking and railway destruction in that republic according to stories printed by Mexico City papers received in this city.

The most striking feat of the rebels was the capture of a train from Mexico City to Puebla at a point only a few miles from the latter city by the forces of the former federal general, Cirilo Arana, who revolted about a year ago. One hundred of the several hundred passengers were seized as hostages.

This followed close on the heels of the capture of six well-known residents of Mexico City at a point near the city, the "Desert of the Lions," not more than a dozen miles from the capital. The captives, former followers of Zapata, sent the women of the party back to Mexico City for a ransom of 2,400 pesos and released their captives when the money was delivered.

More than 100 followers of Pedro Gabay are reported to have been captured by federal forces near the town of Chocoma, state of Vera Cruz. "The Excelsior" tells of the murder by bandits of Enrique Langenschein, son of the German consul at Guanajuato. Langenschein met death at the hands of rebels fleeing from Michoacan into Jalisco, who caught him on his ranch near Lake Chapala.

MAY BRING PEACE TO KOREA BY WITHDRAWING MILITARY

Representative Japanese Suggests Plan to Restore Order on Asiatic Mainland.

TOKYO, July 13.—That all aspects of military rule should be completely banished from Korea is the opinion of representative Japanese. Thus, only they say, can Japan hope to re-establish peace and order among the Korean people.

It is generally admitted here that the disaffection is not removed, but merely quiescent, ready to erupt forth anew once the existing military pressure is removed.

Institution of a civilian government and removal of the present gendarme police system are believed here to be necessary. The gendarmes are held to be responsible for cases of brutality and mistreatment, the soldiers being only responsible, it is declared, for the killing of Koreans in the Christian Church at Cheam-ni. In this case, says the Herald of Asia, a Japanese policeman had been murdered and his body mutilated. The gendarmes told the arriving soldiers an exaggerated story, says the newspaper, and the soldiers joined the gendarmes in a massacre of the people.

One of the gendarmes' method of policing the peninsula is removing the people given more local autonomy, such as the villages of Japan enjoy. Respondents think the Koreans may see the best interests lie in the peaceful acquisition of things as they are. Respondents think the Koreans may favor making Korea an integral part of the Japanese empire politically, as already is territorially. Korea, they conceive, might be made a province of Japan, with a civil Governor and proper representation in the Japanese Diet. But before this is possible, the newspaper thinks, the Koreans must pass through the necessary education and show themselves prepared for self-government.

In Mexican Minister to Bolivia. MEXICO CITY, July 13.—Jose Urte, a diplomat, who has served Mexico in South and Central American countries, has been appointed resident minister to Bolivia by President Carranza. He will take his post at an early date.

27 NATIONS CONFER TO CREATE NEW ORDER

Secretary Lansing Gives His Views of Paris Peace Conference—Asserts Treaty Meets Issues of Present War.

PARIS, July 13.—Before leaving for the United States last night Secretary Lansing made the following statement to the American correspondents:

"Many thoughts rush to my mind on leaving the peace conference after six months of effort. Never before has such an international gathering been held, for here has been the meeting grounds of twenty-seven nations to liquidate a world war and establish a new order and a laboratory where already a system of world co-operation has been born, out of necessity."

"Out of it all has come the most important international document ever drawn—the treaty of peace with Germany, a document which has well met the issues of the present war, but also lays down new agreements of the most helpful character. The nations are bound together to avert another world catastrophe, backward peoples are given a new hope for their future; several racial entities are liberated to form new states; a beginning is made toward removing unjust economic restrictions and the great military autocracies of Central Europe are destroyed as the first step in a general disarmament of the world."

"The treaty is, of course, not all that we had hoped for. It could hardly be expected to be. Too many conflicting interests were involved, as well as too many legitimate documents, which would take the most perfectly balanced peace which could be made. The treaty is, however, a document which we can be proud of, and which we can hope will be the basis of a new world order."

"Such a document must, however, be expected to be. Too many conflicting interests were involved, as well as too many legitimate documents, which would take the most perfectly balanced peace which could be made. The treaty is, however, a document which we can be proud of, and which we can hope will be the basis of a new world order."

A SMALL AMOUNT BENEFITED HER

Baltimore Lady Joins the Plant Juice Enthusiasts in Richmond.

HAD DISTRESS AFTER EATING

Claims Since Taking Plant Juice She Sleeps Well and Has No More Distress.

"Several thousands of people in Richmond already know of the marvelous restorative, corrective and vitalizing powers of Plant Juice, the new herbal stomach remedy. Many who have believed themselves beyond all help have been fully restored to health, after all other remedies failed," said the Plant Juice Man, who has his headquarters at the Tragle Drug Co.'s store, in a recent interview.

"However, there are some who are so incredulous as to doubt the merits of this preparation. It is with the aim of overcoming this skepticism that I am publishing daily the signed testimonials of well-known local people, who have actually tested it, so there will be no doubt in the minds of the skeptical as to the truth of this assertion."

A statement recently received from Mrs. Charles Krowas, of No. 928 North Madeira Street, a well-known citizen of Baltimore, who has resided here for a number of years, will be of interest. She said:

"For the past few years I have suffered greatly with indigestion; no food that I ate seemed to agree with me, but would sour in my stomach and cause gas to form, which gave me great distress after eating. I had headaches, dizzy spells and was badly constipated; I was so nervous that I could never get a good night's sleep. I heard so much about Plant Juice that I finally decided to try it. After taking a small amount I can eat anything I want, sleep well and have no more distress from gas. It has relieved my constipation, and I am feeling fine. I am glad to endorse Plant Juice."

The Plant Juice Man is at the Tragle Drug Co.'s store, in Richmond, where he is daily meeting the local public and introducing and explaining the merits of Plant Juice. Free samples given—Adv.

DRUNKS FEWER IN NUMBER

United Kingdom Statistics Show Improvement Under Liquor Control Board.

LONDON, July 13.—Convictions for drunkenness in England and Wales have decreased in the past four years, according to the statistics of the Liquor Control Board, according to an announcement. The board states that convictions of men and boys in 1915 were 35,437; in 1918, 6,990. In the same period convictions of women decreased from 15,515 to 3,211.

SAYS JAPS SHADOW HIM

Professor J. F. C. Rock, Native of Austria, of College of Hawaii, Gives War Trip.

TOKYO, July 13.—Professor J. F. C. Rock, a native of Austria, and a professor of botany at the College of Hawaii, has complained to the newspaper Hoch, that he has been constantly shadowed by Japanese detectives since his arrival a short time ago from Honolulu. He said that the Japanese government has given him this notice by the notice in the House of Commons on Wednesday that it was raising the price of coal 6 shillings per ton from next Wednesday.

INCREASE OF COAL PRICE FELT IN EVERY BUSINESS

People of Great Britain Given Vivid Lesson in Practical Economics.

PART OF GOVERNMENT PLAN

Raise of Fuel Quotations Followed by Jump in Every Other Phase of Industry—Fight Against Nationalization.

[By Associated Press.] LONDON, July 13.—Seldom has any people received such a swift and vivid lesson in practical economics as the British government has given this nation by the notice in the House of Commons on Wednesday that it was raising the price of coal 6 shillings per ton from next Wednesday.

The response has been immediate and specific and comes from almost every branch of industry in the kingdom—from steel manufacturers, shipbuilders, shipowners, railway managers, gas works and almost all sorts of manufacturers and industries down to laundries and bakeries. They explain just what the government order will cost their concerns, and serve notice, also, that they must pass the cost on to the buyers and consumers.

Great export industries declare that the increase in the price of coal will handicap them in their competition with other countries and may mean, in some instances, a stoppage of their plants and an increase in unemployment. The general public is told how much the higher price of coal will inflate living expenses.

Done as Object Lesson. The government apparently meant this to be an object lesson as to what would result from the prevalent agitation for higher wages and shorter working hours. It also seems to be trying to throw cold water on the campaign for the nationalization of industries by trying to show that government management does not mean that wages can be increased and prices decreased indefinitely.

Labor has taken up the gauntlet, charging the government with wishing to kill the plan for nationalization and also declaring that the government is favoring capitalism and misrepresenting conditions by bungling bookkeeping.

During the last stages of the war the government was running the railroads at a loss, according to a statement made before the House of Commons by Sir Eric Geddes, Minister for National Service and Reconstruction. This loss is now at the rate of £600,000 per year. The deficit in the coal industry is estimated at £46,600,000.

Loss on Wheat Control. The subsidy on bread—that is, the difference between the cost of wheat and selling prices—has amounted to £500,000,000. It is estimated that a penny loaf would cost a shilling sold on an uncontrolled market.

The government holds that the increase of 6 shillings was necessary by increased wages. The present position of railways and mines is that there is government control with private ownership.

The question agitating the country, particularly in the coal industry, is whether the government proposes to adopt the demand of labor unions for nationalization. Colonel Winston Spencer Churchill, Secretary for War, told his constituents in Dundee during an address in the last election campaign that the government had decided to nationalize the railways. Conservative members of the Lloyd George coalition Cabinet opposed this bitterly and appear to have carried the day. Andrew Bonar Law, government leader in the House of Commons, said in the House on Wednesday:

"It is utterly impossible that an industry like coal should be subsidized out of the taxpayers' pockets."

OBJECT TO GIRLS' PRESENCE

Royal Air Force Boxers Have Edict Issued Against Females' Admission.

LONDON, July 13.—Boxing matches are not for girls, either in the ring or among the spectators, is the edict of the Royal Air Force in an order directed to its women members.

"The practice of watching boxing matches is undesirable," runs the order. "Secondly, boxing is not considered to be a suitable sport for women."

It is said that the airmen boxers themselves object to the presence of women at the bouts.

Chicago Air Mail Line Unsurpassed

Official Statement Says Trips Have Resulted in Perfect Scores.

WASHINGTON, July 13.—"On the Cleveland-Chicago division a perfect score of 100 per cent was obtained in the air mail service for the month of June," says an official announcement issued here today by the Post-office Department.

A total of 19,825 miles was run during the month of June on that division and a total of 15,603 pounds of mail was carried," the statement continues. "The average speed on that route for the month was 97.88 miles per hour. The best flying was performed on June 13, when the round trip from Cleveland to Chicago was made in six hours and fourteen minutes, an average of 104.4 miles an hour in each direction."

"The operation of the Cleveland-Chicago route is without a parallel in the history of aviation. The route was started May 15 and has never missed a day—seventy consecutive daily, non-stop flights of 325 miles each were made without a forced landing."

"On the seventy-first trip a gas line connection sprung a leak, causing a forced landing on the emergency air mail landing field at Bryan, O. On the flight from New York to Cleveland, this flying the Liberty engine has not failed a pilot in the air."

"The route from New York to Cleveland, across the Allegheny Mountains, has been operating with the same degree of perfection. The Cleveland-Chicago route since July 7."

"On July 4 there were on the mail routes between Washington and New York, New York and Cleveland, and Cleveland and Chicago, ten planes in flight. The shortest route was 215 miles from New York to Bellefonte, Pa., and the longest route was from Cleveland to Chicago, or 325 miles. All ten planes scored 100 per cent arrivals and leaving every station on time."

A record of 95 per cent was made by the air mail service between Washington and New York for the month of June, covering a mileage of 11,118, and carrying 15,843 pounds of mail."

COHEN CO.

SERVICE FIRST—SATISFACTION ALWAYS

Demonstration of The "Duplex" Fireless Cooker

Mrs. Nellie H. Winall, who is personally directing this important demonstration of the "Duplex" Fireless Cooker, is a recognized authority on cooking in general and the use of this stove in particular. Today Mrs. Winall will show you how to bake delicious Bread, Cakes and Rolls in the "Duplex." Third Floor.

Here Are a Few Very Seasonable Items for the Home

In calling special attention to "Pyrex" Transparent Oven Dishes we would emphasize certain features of merit altogether in their favor. First, it is of interest to know that by using these Dishes the fuel bill is greatly reduced because they absorb nearly all the oven heat and bake quickly. Secondly, meats, vegetables, etc., cooked in "Pyrex" way retain their natural color and flavor, thus it is possible to buy the less expensive kinds and yet have delicious food. Consider also that "Pyrex" saves labor and is always free from grease and odors.

"Pyrex" Casseroles are 70c to \$2.50
Pudding or Boiling Dishes 60c to \$1.40
Pie Plates 75c to \$1.00
Bread Pans at 90c to \$1.75

Special Brooms Crepe Toilet Paper

These 4-string Brooms of new corn are of exceptional quality and will give excellent service. Limited number 39c

You will note that this very fine quality Crepe Toilet Paper is in full 8-ounce rolls. Per roll 5c

Money Saved

You can still save money by buying now, or placing your order for delivery before September 1st. The service of your organization is at your disposal. Price and quality guaranteed.
